Carroll Electric Cooperative Internship Paid Opportunities 2025

Description

Carroll Electric Cooperative is offering paid internship opportunities for 2025, designed to provide students with hands-on experience in the utility industry. Interns will gain valuable insight into the operations of a leading electric cooperative and contribute to various projects across departments. This internship will help bridge the gap between academic learning and professional work, providing participants with the skills and knowledge needed to pursue a career in the energy sector.

Responsibilities

- Assist in day-to-day operations within various departments including but not limited to engineering, customer service, operations, and administration.
- Collaborate with team members on projects involving electrical systems, data analysis, and customer service improvement.
- Conduct research and analysis to support ongoing projects and initiatives.
- Help prepare reports, presentations, and documentation for internal use and presentations to management.
- Support the development and implementation of new processes, tools, and technologies to improve efficiency and service quality.
- Participate in safety training and adhere to safety standards while working in the field or office.
- Attend team meetings and contribute ideas and solutions for continuous improvement.

Qualifications

- Currently enrolled in a relevant undergraduate or graduate program (e.g., Electrical Engineering, Business Administration, Energy Management, Environmental Science, or similar fields).
- Must have completed at least 30 credit hours of coursework by the start of the internship.
- Ability to work effectively both independently and as part of a team.
- Strong analytical skills with the ability to interpret data and solve problems.
- Excellent communication skills, both verbal and written.
- Proficiency in Microsoft Office Suite (Excel, Word, PowerPoint) and other relevant software tools.

Experience

- Previous internship or work experience in a related field is a plus but not required.
- Hands-on experience or coursework in electrical systems, project management, or customer service is an advantage.

Skills

- Strong organizational and time-management skills.
