## CIA Internship Undergraduate Intelligent Students Program 2025 In US

### Description

The CIA Internship Undergraduate Intelligence Students Program offers talented, driven university students the opportunity to gain first-hand experience in intelligence operations, data analysis, and national security matters. This highly competitive program provides interns with an immersive experience in a government agency, helping them develop critical skills while contributing to the CIA's mission of safeguarding national security and advancing the country's intelligence capabilities. Interns will gain exposure to the intelligence community, work with experienced professionals, and enhance their understanding of U.S. intelligence operations.

### Responsibilities

- Assist in gathering, analyzing, and evaluating intelligence data relevant to national security issues.
- Support senior analysts and operatives in preparing reports, presentations, and briefings on intelligence findings.
- Work with a team of professionals to conduct research, track trends, and assist with intelligence collection methods.
- Participate in intelligence-related projects that align with U.S. foreign policy and security objectives.
- Contribute to the development and implementation of new tools, systems, and techniques for intelligence analysis.
- Participate in meetings, briefings, and training sessions designed to improve understanding of intelligence work.
- Engage in administrative tasks such as data entry, organizing files, and assisting with documentation.
- Maintain confidentiality and exercise discretion in handling sensitive and classified information.
- Collaborate with other agency departments to enhance operational effectiveness and intelligence collection.

### Qualifications

- Currently enrolled as an undergraduate student at an accredited U.S. university with at least one semester of study remaining before graduation.
- U.S. citizenship required.
- Strong academic performance in courses related to intelligence, national security, political science, computer science, data analytics, international relations, or a related field.
- Minimum GPA of 3.0 on a 4.0 scale.
- Interest in pursuing a career in intelligence, national security, or government service.

### Experience

- No previous professional experience is required, but prior involvement in

intelligence-related activities, security studies, or internships in government agencies is a plus.

- Experience working with large datasets, research, or any form of analytical work is beneficial.

## **Skills**

- Strong analytical and critical thinking skills, with the ability to assess complex information.
- Proficient in Microsoft Office Suite (Excel, Word, PowerPoint); knowledge of data analysis tools or programming languages (e.g., Python, R) is a plus.
- Excellent written and verbal communication skills, including the ability to create reports and deliver briefings.
- Ability to work independently, as well as part of a collaborative team.
- Detail-oriented with strong organizational skills.
- Ability to maintain a high level of discretion and confidentiality when handling sensitive information.
- Self-motivated, adaptable, and eager to learn in a fast-paced, dynamic environment.

## **Job Benefits**

- Gain valuable experience and hands-on training within the U.S. intelligence community.
- Opportunity to contribute to national security efforts and support intelligence operations.
- Networking opportunities with professionals in the field of intelligence, national security, and government service.
- Potential for full-time employment after graduation for exceptional performers.
- Competitive stipend to cover living expenses during the internship period.
- Exposure to advanced tools and techniques used in the intelligence field.
- Opportunities for mentorship and career development.

## **How To Apply**

To apply, candidates must submit the following:

1. A current resume or CV, highlighting academic achievements and relevant experience.
2. A cover letter detailing your interest in the program, why you want to work with the CIA, and how your skills and experiences make you a strong candidate.
3. A transcript from your current academic institution.
4. A letter of recommendation from a professor or academic advisor who can speak to your qualifications and character.
5. A brief writing sample or research paper related to national security, intelligence, or international relations.
