Consumers Energy Internship Opportunities 2025 United States

Description

Consumers Energy is seeking motivated and innovative college students to join our 2025 Internship Program. This is a valuable opportunity to gain hands-on experience in the energy industry while contributing to impactful projects across various business functions. Interns will work alongside experienced professionals and leaders, developing skills that will shape the future of the energy sector.

Responsibilities

- Collaborate with teams across different departments to support ongoing projects and business initiatives.
- Assist in analyzing data, preparing reports, and providing recommendations to improve processes or enhance customer experiences.
- Participate in the development and implementation of new technologies or solutions in areas like energy production, sustainability, and operations.
- Support project management activities, including documentation, scheduling, and coordination.
- Attend weekly meetings with mentors and managers to discuss progress and receive feedback.
- Contribute to problem-solving sessions, brainstorming ideas, and providing creative input for departmental projects.
- Gain exposure to company culture and the energy industry through networking events, seminars, and mentorship programs.

Qualifications

- Currently enrolled in an undergraduate program (preferably in fields such as Engineering, Business, Marketing, Finance, IT, Environmental Science, or related disciplines).
- Must be a U.S. citizen or legally authorized to work in the United States.
- GPA of 3.0 or higher preferred.

Experience

- Previous internship or relevant academic projects in related fields is a plus but not required.
- Active involvement in student organizations, clubs, or volunteer work demonstrating leadership or teamwork skills.

Skills

- Strong analytical skills with a passion for problem-solving.
- Excellent communication skills, both written and verbal.
- Ability to work independently and in teams.
- Proficiency with Microsoft Office Suite (Excel, PowerPoint, Word) or similar software.
- A keen interest in the energy sector and sustainability practices is preferred.
