DARPA Summer Internship Opportunities Employment 2025

Description

The purpose of the DARPA Summer Internship Program is to give students a platform to contribute to high-impact research projects while advancing their technical and analytical skills. Interns will work directly with DARPA teams to tackle complex challenges, participate in experimental designs, and support national security-focused research and development efforts.

Responsibilities

- **Contribute to Research Projects:** Assist in DARPA-funded research projects within areas such as artificial intelligence, cybersecurity, biotechnology, autonomous systems, and advanced materials.
- **Data Collection and Analysis:** Conduct data collection, processing, and analysis tasks to support experimental and research objectives.
- **Collaborate with Cross-Functional Teams:** Work closely with DARPA scientists, engineers, and program managers to understand project goals and deliver on research tasks.
- **Report and Present Findings:** Develop reports, presentations, and technical documentation summarizing findings and progress on assigned projects.
- **Participate in Strategy Sessions:** Attend meetings, briefings, and brainstorming sessions to gain insight into project planning and development processes.
- **Support Experimentation and Prototyping:** Assist in testing, prototyping, and developing experimental models or simulations as required.

Qualifications

- **Education:** Currently pursuing a Bachelor's, Master's, or Doctoral degree in a relevant field, such as Computer Science, Engineering, Mathematics, Physics, Biotechnology, or other STEM-related fields.
- **Academic Standing:** A minimum GPA of 3.0 is preferred, with a strong record in courses related to research and technology.
- **Clearance Eligibility:** Candidates may need to meet eligibility requirements for a security clearance.

Experience

- **Relevant Coursework:** Coursework in areas such as machine learning, cybersecurity, systems engineering, data analysis, and materials science is beneficial.
- **Research Experience:** Prior experience in research labs, academic projects, or related internships is highly desirable.
- **Technical Skills:** Familiarity with relevant software, tools, and programming languages (e.g., Python, MATLAB, C++, or R) is an asset.

Skills

Hiring organization
DARPA

Employment Type
Intern

Duration of employment
6 Months

Job Location
Arlington, Virginia, United States,,
20598, Arlington, Virginia, United States,

Base Salary
10

Date posted
November 3, 2024

Valid through
11.11.2026

- **Analytical Thinking:** Strong analytical skills with the ability to interpret and synthesize complex information.
- **Technical Proficiency:** Comfort with data analysis, software tools, and technical research methodologies.
- **Communication Skills:** Strong written and verbal communication skills, especially in conveying complex technical information.
- **Attention to Detail:** High attention to detail in both data analysis and technical documentation.
- **Problem-Solving Abilities:** Ability to approach challenges creatively and think critically to solve problems.

Job Benefits

- **Hands-On Research:** Work directly on DARPA research projects and apply theoretical knowledge to practical challenges.
- **Mentorship:** Receive guidance from experienced DARPA professionals, including scientists, engineers, and project managers.
- **Professional Development:** Access to seminars, workshops, and networking events focused on career advancement and professional growth.
- **Competitive Compensation:** Interns will receive a stipend for the duration of the internship.
- **Exposure to National Security Initiatives:** Gain unique insights into national security and defense research, with opportunities to impact real-world challenges.

How To Apply

- **Visit the DARPA Careers Page:** Go to the DARPA website and navigate to the “Careers” section.
- **Search for Internship Opportunities:** Look for the “Summer Internship Program 2025” and select the relevant internship listing.
- **Complete the Application:** Fill out the online application form and submit required documents, including your resume, cover letter, transcripts, and a letter of recommendation (if requested).
- **Security Clearance Process:** Selected candidates may be required to undergo a security clearance background check.
- **Interview Process:** Shortlisted candidates will be invited for an interview, which may include both technical and behavioral components.
