## Department Of Interior Internship Graduate Program 2025

### Description

The Department of the Interior (DOI) Internship Graduate Program 2025 offers recent graduates an opportunity to gain valuable experience in public service while contributing to the stewardship of the nation's natural resources and cultural heritage. This program is designed to help recent graduates transition from academic life to a professional career, providing hands-on experience in various fields related to environmental protection, land management, policy development, and natural resource conservation. The selected interns will work on important projects and collaborate with DOI professionals to contribute to the department's mission.

### Responsibilities

- Assist DOI teams in managing and protecting public lands, wildlife, and natural resources.
- Participate in policy research and analysis, including the review and development of regulations and reports.
- Provide support in environmental and resource management initiatives, contributing to conservation, restoration, and sustainability efforts.
- Assist in the development and implementation of public outreach, education, and engagement programs.
- Conduct fieldwork, including data collection, monitoring, and assessment of natural resources.
- Support team members in project planning, logistics, and coordination for various departmental initiatives.
- Prepare presentations, reports, and briefings for internal stakeholders and external partners.
- Participate in team meetings, providing input and assisting with the execution of departmental goals and projects.

### Qualifications

- Recent graduate (within the last two years) or currently enrolled in a graduate program in environmental science, public policy, natural resource management, biology, law, or a related field.
- Strong academic record with a minimum GPA of 3.0 or higher.
- U.S. citizenship or legal authorization to work in the United States.
- Ability to work full-time during the internship period (typically May through August 2025).
- Demonstrated interest in public service, conservation, environmental protection, and natural resource management.

### Experience

- Prior experience in research, policy analysis, environmental science, land management, or related fields is a plus but not required.
- Experience with field research, data analysis, or project management in a
