## Duke Energy Internship Opening And Program 2025

### Description

The Duke Energy Internship Program aims to empower students with professional skills and industry knowledge by involving them in impactful projects across various departments, such as engineering, finance, IT, environmental science, and customer service. Interns will work closely with industry experts, gaining insights into the daily operations of a leading energy provider and contributing to the company's mission of building a smarter, cleaner energy future.

### Responsibilities

- Assist in the development and implementation of projects within assigned departments.
- Perform data analysis to support energy solutions, customer insights, or operational improvements.
- Conduct research on renewable energy trends, sustainability initiatives, or technology advancements in the energy sector.
- Prepare reports, presentations, and project documentation as required by the department.
- Collaborate with cross-functional teams, attend departmental meetings, and contribute to problem-solving sessions.
- Provide administrative support when needed, including managing schedules, organizing files, and maintaining project records.
- Participate in training sessions, workshops, and professional development activities to deepen industry knowledge.

### Qualifications

- Currently enrolled in an undergraduate or graduate program, ideally in Engineering, Environmental Science, Finance, Business Administration, Information Technology, or a related field.
- Minimum GPA of 3.0 or equivalent academic standing.
- Completion of at least two years of college coursework by the start of the internship.

### Experience

- Prior internship experience in a related field, such as energy, engineering, finance, or sustainability, is advantageous but not required.
- Demonstrated interest in the energy industry, renewable resources, or sustainability initiatives.

### Skills

- Strong analytical and problem-solving abilities with an interest in data-driven decision-making.
- Excellent written and verbal communication skills.
- Proficiency in Microsoft Office Suite (Excel, Word, PowerPoint) and other software as relevant to the department.

### Hiring organization
