EPA Internship Research Trainee Opportunities 2025 For Apply

Description

The Environmental Protection Agency (EPA) is seeking enthusiastic and dedicated interns to join our 2025 Research Trainee Program. This internship offers a unique opportunity for students and recent graduates to gain hands-on experience in environmental research and policy development. As an EPA Research Trainee, you will work alongside experts in environmental science and policy to support cutting-edge research projects aimed at promoting environmental sustainability and public health.

Responsibilities

As a Research Trainee, you will be involved in a variety of projects and tasks, including but not limited to:

- Assisting with environmental research studies and data analysis on topics such as air quality, water resources, climate change, and hazardous waste management.
- Conducting literature reviews to support ongoing research and policy development.
- Collecting, organizing, and analyzing environmental data using various software tools.
- Preparing reports, presentations, and scientific papers summarizing findings.
- Participating in fieldwork, lab analysis, and environmental impact assessments.
- Collaborating with EPA staff and external partners on ongoing environmental projects.
- Supporting the development of policy recommendations based on research findings.
- Attending seminars, workshops, and meetings related to environmental research and policy.

Qualifications

- Enrollment in or recent completion of an undergraduate or graduate degree program in Environmental Science, Environmental Policy, Public Health, Chemistry, Biology, Engineering, or a related field.
- Strong academic background and interest in environmental protection, sustainability, and scientific research.
- Good understanding of environmental laws, regulations, and policies is a plus.

Experience

- Previous research experience or participation in internships, projects, or volunteer work related to environmental science, policy, or sustainability is preferred but not mandatory.
- Experience with data analysis tools (e.g., Excel, SPSS, R, Python) is an
