FEMA Internship Recent Graduate Program 2025 In US

Description

The FEMA Recent Graduate Program is designed to equip recent graduates with practical experience in disaster response, recovery, preparedness, and resilience-building. Participants will work directly with FEMA professionals to gain insights into federal emergency management practices and contribute to meaningful projects that make communities safer.

Responsibilities

Interns in FEMA's Recent Graduate Program will:

- **Assist in disaster response and recovery activities:** Support FEMA teams in mobilizing resources, coordinating with local authorities, and aiding communities during and after disasters.
- **Analyze data and contribute to research:** Participate in collecting, analyzing, and interpreting data related to emergency management operations, risk assessment, and community resilience.
- **Develop and improve FEMA programs:** Contribute to the planning and implementation of FEMA's emergency management, public education, and community outreach initiatives.
- **Participate in policy and program development:** Assist with developing recommendations and plans for improving FEMA's preparedness and response strategies.
- **Engage in professional development activities:** Take part in workshops, training sessions, and networking events to gain knowledge and build connections in the field.

Qualifications

Candidates for the FEMA Recent Graduate Program must:

- Be a recent graduate (within the last two years) from an accredited U.S. college or university.
- Hold a bachelor's or master's degree in Emergency Management, Public Administration, Environmental Science, Homeland Security, or a related field.
- Be a U.S. citizen and able to pass a federal background check.

Experience

While no prior work experience is required, FEMA encourages applications from individuals with:

- Experience in volunteer work, internships, or community service related to emergency management, public administration, or government roles.
- Involvement in research, projects, or coursework relevant to disaster response and resilience.

Skills

Ideal candidates should demonstrate:
