First Energy Internship Students Opportunities 2025

Description

The FirstEnergy Internship Program 2025 offers students the chance to gain real-world experience in the energy industry while developing essential skills for a career in utilities and energy solutions. Interns will work in various areas, such as engineering, IT, finance, environmental science, and more, supporting FirstEnergy's commitment to safe, reliable, and sustainable energy. This program is designed to provide meaningful professional development, technical experience, and insight into the power industry.

Responsibilities

- Collaborate with FirstEnergy professionals on projects relevant to your field of study, such as power generation, transmission and distribution, finance, IT, and customer service.
- Conduct research, analysis, and evaluations to support ongoing projects or departmental needs.
- Assist in troubleshooting and problem-solving activities related to electrical systems, data analysis, and other technical areas.
- Participate in meetings, training sessions, and site visits to understand industry practices and standards.
- Create reports and presentations to summarize findings, propose solutions, and present them to supervisors or team members.
- Adhere to FirstEnergy's safety standards, policies, and regulations in all activities.
- Complete other tasks as assigned to support FirstEnergy's operations and business objectives.

Qualifications

- Currently enrolled in an accredited college or university, majoring in engineering, environmental science, computer science, finance, business, or a related field.
- Junior or senior undergraduate students or graduate students are preferred.
- Must be legally authorized to work in the United States.
- Must be willing to comply with FirstEnergy's drug-free workplace and safety policies.

Experience

- Previous internship or work experience in a related field (preferred but not required).
- Familiarity with energy industry practices, environmental policies, or business operations is an advantage.

Skills

- Strong analytical and problem-solving skills.
