## Idaho Dept Of Labor Internship Students Opportunities 2025

### Description

The internship program at the Idaho Department of Labor aims to provide students with practical work experience in various areas of labor services and workforce development. Interns will gain valuable insight into government operations, job training programs, and labor market trends while assisting the department in enhancing its services for Idaho's communities.

### Responsibilities

Interns may be assigned to different teams and projects based on their skills and interests. Typical duties include:

- Assisting in the analysis of labor market data and preparing reports on employment trends
- Supporting community outreach efforts and job fairs
- Assisting in the creation and promotion of workforce training programs
- Helping customers navigate career resources, job boards, and training information
- Contributing to research projects related to workforce and economic development
- Participating in meetings, workshops, and briefings with department staff
- Assisting with special projects as assigned by supervisors

### Qualifications

To be eligible for the Idaho Department of Labor Internship Program, applicants must:

- Be currently enrolled in an undergraduate or graduate program at an accredited college or university
- Have a strong interest in public policy, workforce development, economics, or related fields
- Be able to commit to the internship period (specific dates will be provided during the selection process)

### Experience

Previous experience is not required, but relevant coursework or volunteer work in public administration, economics, social work, or community engagement is a plus.

### Skills

The ideal candidate should possess the following skills:

- Strong analytical and problem-solving abilities
- Effective written and verbal communication skills
- Ability to work both independently and as part of a team
- Proficiency in Microsoft Office Suite (Excel, Word, PowerPoint)
- Basic knowledge of data analysis tools (e.g., SPSS, Tableau) is a plus
