MPERI

Imperial College London Internship Students Opportunities 2025

Description

Imperial College London is offering exciting internship opportunities for students in 2025. These internships provide a unique chance to gain valuable work experience within one of the world's leading institutions in science, engineering, medicine, and business. Interns will work closely with academic and research teams, supporting various projects and initiatives across multiple departments. The programme aims to equip students with practical skills, enhance their academic knowledge, and provide them with insight into the workings of a prestigious university.

Responsibilities

- Assist in research projects by gathering, analyzing, and interpreting data.
- Support administrative tasks within academic departments and research teams.
- Contribute to the preparation of presentations, reports, and publications.
- Help in the design and execution of experiments or simulations (depending on department).
- Collaborate with faculty and staff on a range of projects, gaining exposure to diverse academic and professional environments.
- Participate in departmental meetings, workshops, and training sessions.
- Provide technical and logistical support for events, conferences, and outreach activities.
- Take part in regular reviews and feedback sessions with mentors to track progress and development.

Qualifications

- Currently enrolled in an undergraduate or postgraduate degree program at a recognized university.
- A strong academic background in a relevant field (e.g., science, engineering, business, humanities, etc.).
- Must be available for the full duration of the internship as per the specified dates in 2025.
- Applicants must have the right to work in the UK for the duration of the internship.

Experience

- Previous internship or project experience in a relevant field is desirable but not essential.
- Experience in working with academic teams or involvement in university-based projects is a plus.
- Prior exposure to data collection, analysis, and report writing will be beneficial.
