NASA Summer Internship And Fellowships Program 2025

Description

The NASA Summer Internship and Fellowships Program for 2025 offers unique, hands-on opportunities for students to work on groundbreaking projects alongside NASA's team of world-class scientists, engineers, and professionals. This program is designed to inspire, engage, and develop the next generation of innovators who will contribute to NASA's mission to explore space, advance scientific knowledge, and inspire future generations. Interns and fellows will gain experience across a variety of disciplines, including aerospace engineering, astrophysics, robotics, planetary science, computer science, and more.

Responsibilities

As a NASA Summer Intern or Fellow, you will:

- Collaborate with NASA professionals on assigned projects in your field of study, contributing to the advancement of NASA's mission and goals.
- Conduct research, data analysis, experiments, or simulations, depending on the focus of your assignment.
- Participate in project meetings, seminars, and presentations, gaining exposure to NASA's research and development processes.
- Present findings, insights, and recommendations to NASA staff, fostering skills in communication and project management.
- Document and report project progress, keeping accurate records of your work and contributing to ongoing research efforts.
- Engage in professional development activities, networking events, and mentorship sessions with NASA experts and fellow interns.

Note: Specific duties will vary based on the internship or fellowship project and assigned NASA center.

Qualifications

- Enrolled in an accredited undergraduate or graduate program in a relevant field (e.g., Aerospace Engineering, Physics, Computer Science, Environmental Science, Astrobiology, or related disciplines).
- Minimum GPA requirement of 3.0 (varies by position).
- Must be a U.S. citizen, as some positions may have security or clearance requirements.

Experience

- Relevant coursework, research experience, or project-based learning in the field of study associated with the internship or fellowship focus area.
- Demonstrated ability to work independently and collaboratively in a team environment.
- Previous internship, research, or hands-on experience in a STEM field is highly desirable.

Hiring organization

NASA

Employment Type

Intern

Duration of employment

6 Months

Job Location

Washington D.C., United States,
20001, Washington, D.C., United States

Working Hours

8

Base Salary

10

Date posted

November 3, 2024

Valid through

14.11.2026

Skills

- **Technical Proficiency:** Strong understanding of concepts relevant to your field, with the ability to learn and apply new technologies.
- **Analytical Skills:** Demonstrated problem-solving and critical-thinking skills, with experience in data analysis, research methods, or technical projects.
- **Communication Skills:** Effective verbal and written communication skills; ability to present technical findings clearly.
- **Team Collaboration:** Ability to work in a team-based environment and contribute to shared objectives.
- **Adaptability:** Willingness to learn and adapt in a dynamic, fast-paced environment with cutting-edge technologies.
- **Attention to Detail:** Meticulous in conducting research, documenting findings, and maintaining accurate records.

Job Benefits

- **Competitive Stipend:** A paid internship or fellowship with a stipend based on academic level and relevant experience.
- **Hands-On Experience:** Opportunity to work on real NASA projects and make meaningful contributions to space exploration and scientific discovery.
- **Professional Development:** Access to training sessions, workshops, mentorship, and networking opportunities with NASA professionals and other interns.
- **Field Exposure:** Gain insight into the world of space exploration, aerospace, and advanced scientific research.
- **Career Pathways:** Potential for future internship or employment opportunities at NASA, including post-graduation pathways.

How To Apply

Interested candidates should submit their application through the NASA Internships and Fellowships Program portal by [Application Deadline, typically in early spring 2025]. Required documents include:

1. **Resume or CV:** Detail academic background, work experience, and relevant skills.
2. **Cover Letter:** Explain your interest in NASA's internship and fellowship program, relevant background, and future aspirations.
3. **Transcripts:** Unofficial transcripts may be submitted with the application, but official transcripts may be required upon request.
4. **Letters of Recommendation (if applicable):** Some programs may require or recommend submission of recommendation letters.
