NHS Internship Research Students For Training 2025 In UK

Description

The NHS Internship Research Students for Training 2025 provides an exciting opportunity for highly motivated students to gain practical experience in medical and health research within the NHS environment. As an intern, you will work alongside world-leading professionals, supporting research projects that aim to improve patient care, health outcomes, and clinical practices. This role offers valuable exposure to the research process, as well as the chance to develop technical and analytical skills in a healthcare setting.

Responsibilities

- **Research Support:** Assist in the design, planning, and execution of clinical and healthcare research projects.
- **Data Collection & Analysis:** Support the collection, management, and analysis of research data, ensuring accuracy and compliance with research protocols.
- **Literature Review:** Conduct literature reviews to support ongoing research projects and contribute to the development of new research ideas.
- **Patient Interaction:** Support clinical teams in gathering patient information and ensuring ethical standards are maintained.
- **Report Writing:** Contribute to the preparation of reports, research papers, and presentations for conferences or publications.
- **Collaboration:** Work closely with interdisciplinary teams, including researchers, clinicians, and healthcare professionals, to ensure the success of projects.
- **Training & Development:** Participate in internal training sessions and workshops to develop research skills and professional knowledge.

Qualifications

- **Essential:**
 - Current enrollment in a relevant undergraduate or postgraduate degree (e.g., Biomedical Sciences, Healthcare, Medicine, Public Health, or related fields).
 - Strong academic record with an interest in healthcare research.
- **Desirable:**
 - Previous experience or coursework related to clinical research or data analysis.
 - Understanding of ethical guidelines in medical research and patient confidentiality.

Experience

- **Essential:**
 - No previous work experience is required, but a demonstrated interest in healthcare research is essential.
 - Academic background in healthcare, science, or a related field is

preferred.

- **Desirable:**
 - Previous experience with research methodologies, laboratory work, or clinical settings (such as voluntary or academic projects).

Skills

- **Analytical Skills:** Ability to analyze data, interpret results, and present findings clearly.
- **Communication Skills:** Strong verbal and written communication skills, with the ability to collaborate effectively with multidisciplinary teams.
- **Organisational Skills:** Good time management and the ability to handle multiple tasks efficiently.
- **Attention to Detail:** High accuracy in data collection, management, and reporting.
- **Technical Skills:** Familiarity with research tools, databases, and statistical software (e.g., SPSS, Excel) is an advantage.
- **Ethical Awareness:** Understanding of research ethics and patient confidentiality requirements.

Job Benefits

- **Practical Research Experience:** Gain hands-on experience working on cutting-edge medical and healthcare research.
- **Mentorship:** Receive guidance and mentorship from leading professionals in the field of healthcare research.
- **Career Development:** Access to training, networking opportunities, and potential career pathways within the NHS or research fields.
- **Competitive Salary:** Remuneration in line with NHS internship standards.
- **Flexible Working:** Opportunities for hybrid or flexible working arrangements (subject to project needs).
- **Employee Benefits:** Access to NHS staff benefits, including health and wellness programs, discounts, and more.

How To Apply

Interested candidates should submit the following documents via the NHS Jobs portal by the application deadline:

1. **A CV** outlining your academic background, any relevant work experience, and skills.
2. **A Personal Statement** maximum 500 words explaining your interest in healthcare research and why you are applying for this internship.
3. **Two Academic References** at least one from a current tutor or lecturer.
