ODNI Internship And Program for Graduate Students 2025

Description

The ODNI (Office of the Director of National Intelligence) Internship Program for Graduate Students is a premier opportunity for emerging professionals to gain insights into the U.S. intelligence community. This internship provides hands-on experience in national security, intelligence analysis, policy-making, data science, and other key areas within the ODNI. Graduate interns will work on high-impact projects, gaining knowledge that supports national security priorities while expanding their expertise and professional networks.

Responsibilities

- **Intelligence Analysis:** Assist in analyzing and synthesizing intelligence data to support decision-making and policy development.
- **Research and Reporting:** Conduct research on topics related to national security and intelligence, preparing briefs, reports, or presentations.
- **Data Collection and Interpretation:** Work with various data sources, using data analytics tools to extract actionable insights relevant to ODNI objectives.
- **Policy Development:** Collaborate on policy research and development, contributing to the preparation of recommendations or draft policies.
- **Cross-Team Collaboration:** Work with teams across departments, participating in meetings, projects, and other collaborative activities.
- **Project Documentation:** Document workflows, methodologies, and findings for ongoing projects and knowledge-sharing.

Qualifications

- **Education:** Currently enrolled in an accredited graduate program, with studies related to International Relations, Political Science, Data Science, Cybersecurity, National Security, or related fields.
- **Academic Standing:** Strong academic performance, with a minimum GPA of 3.0 or higher (or equivalent).
- **Authorization:** U.S. citizenship required, along with eligibility to work in the United States and the ability to obtain a security clearance.

Experience

- **Relevant Coursework or Research:** Exposure to subjects like national security, intelligence, international relations, or data science through coursework, research projects, or thesis work.
- **Professional Experience:** Prior experience in government, military, intelligence, or research roles is a plus but not mandatory.
- **Project Involvement:** Experience through academic or extracurricular projects related to policy, data analysis, or security studies is beneficial.

15.11.2026

- **Analytical Skills:** Ability to analyze complex information and produce clear, logical insights.
- **Communication:** Strong written and verbal communication skills to create clear, concise reports, presentations, and briefs.
- **Technical Proficiency:** Familiarity with data analysis tools and software (e.g., R, Python, SQL) is an advantage, especially for roles focused on data science.
- **Problem Solving:** Critical thinking and problem-solving skills to contribute meaningfully to projects with high impact.
- **Attention to Detail:** Detail-oriented approach, particularly when working with sensitive data or documentation.
- **Teamwork and Adaptability:** Ability to work collaboratively with diverse teams in a dynamic environment and adapt to changing project needs.

Job Benefits

- **Professional Development:** Direct exposure to intelligence work, with mentorship from experts in the field.
- **Networking Opportunities:** Build connections with intelligence professionals, opening doors to future career opportunities in government and national security.
- **Competitive Stipend:** Paid internship with compensation for the full duration of the program.
- **Security Clearance:** Opportunity to obtain a security clearance, which may be beneficial for future career opportunities in government.
- **Flexible Work Environment:** Some flexibility in hours to accommodate academic schedules.

How To Apply
To apply for the ODNI Internship Program, please submit the following documents:

1. **Resume/CV:** Highlighting academic achievements, relevant coursework, and any professional experience.
2. **Cover Letter:** Briefly explaining your interest in intelligence and national security and how this internship aligns with your career goals.
3. **Transcript:** An official or unofficial transcript showing your current academic performance.
4. **References:** Provide contact information for two academic or professional references.
