PPL Internship Students Research Opportunities 2025 In United States

Description

PPL Corporation is seeking talented and motivated students for its Internship Research Opportunities in 2025. This internship is designed to provide students with hands-on experience and exposure to cutting-edge research in the energy and utilities sector. Interns will work alongside experienced professionals to contribute to real-world projects that have a direct impact on PPL's operations and innovations. This opportunity will allow students to develop their skills in a dynamic and supportive environment while gaining valuable industry insight.

Responsibilities

- Assist in conducting research and analysis in energy systems, sustainability, and smart grid technologies.
- Support the development of reports, presentations, and technical documentation for ongoing research projects.
- Participate in data collection, modeling, and simulations to inform decision-making processes.
- Collaborate with cross-functional teams to brainstorm and develop new ideas and solutions.
- Conduct literature reviews and stay up-to-date with the latest industry trends and advancements.
- Present research findings to senior staff and contribute to strategic recommendations.
- Assist with project management tasks, ensuring research deadlines are met.

Qualifications

- Enrollment in an accredited Bachelor's or Master's degree program in Engineering, Computer Science, Environmental Science, Energy Systems, Mathematics, or a related field.
- Strong academic performance with an interest in research and development in the energy sector.
- Ability to work independently as well as part of a team.

Experience

- Prior internship or research experience is preferred but not required.
- Experience with research methods, data collection, and analysis is a plus.
- Familiarity with relevant software tools (e.g., MATLAB, Python, Excel, etc.) is advantageous.

Skills

- Strong analytical and problem-solving skills.
- Excellent communication skills, both written and verbal.
- Ability to present complex information in a clear and understandable
