Schneider Electric Internship For Young Students Program 2025

Description

Schneider Electric's Internship for Young Students Program offers an exciting opportunity for students to gain hands-on experience in the energy management and automation sector. As an intern, you will contribute to innovative projects while learning from professionals in the field. This program is designed to help young students build their skills, expand their professional network, and explore career opportunities within a global leader in sustainability and energy efficiency.

Responsibilities

- Assist with ongoing projects in various departments, including engineering, IT, supply chain, finance, and marketing.
- Contribute to the development of new ideas and solutions for current challenges within the energy management sector.
- Conduct research, analyze data, and prepare reports to support decision-making processes.
- Participate in team meetings, brainstorming sessions, and contribute suggestions for process improvements.
- Shadow experienced professionals to learn best practices in the industry.
- Support the coordination of events, campaigns, and community outreach activities.
- Take part in training programs designed to enhance your technical and soft skills.

Qualifications

- Currently enrolled in a recognized university or college program (Bachelor's or Master's level).
- Preferred fields of study include Engineering, Computer Science, Business Administration, Sustainability, Marketing, and related disciplines.
- Strong academic background with a demonstrated passion for the energy and sustainability sector.
- Open to students from diverse backgrounds and areas of study.

Experience

- No prior professional experience is required. However, any internships, volunteer work, or academic projects related to energy management, sustainability, or technology will be considered a plus.
- A keen interest in innovation, sustainability, and energy solutions.

Skills

- Strong analytical and problem-solving skills.
- Excellent written and verbal communication skills.
- Ability to work effectively in a team environment and collaborate with diverse groups.
