UCLA Health Internship Graduate Latest Opportunities 2025

Description

The UCLA Health Internship Graduate Opportunities (2025) program offers a dynamic learning experience designed for graduate-level students seeking to gain hands-on experience in healthcare management, clinical operations, research, and other key areas within UCLA Health. As an intern, you will work closely with experienced professionals and contribute to impactful projects that directly affect patient care, research innovations, and hospital operations. This internship is an excellent opportunity for recent graduates to gain insight into the healthcare industry while building essential skills for future career success.

Responsibilities

- Assist with various projects and initiatives within healthcare operations, research, or patient care management, depending on the assigned department.
- Collaborate with senior staff to support data analysis, research, and the development of healthcare solutions.
- Participate in meetings and contribute ideas to improve patient care delivery, administrative processes, and organizational strategies.
- Conduct research to support department goals, preparing presentations and reports based on findings.
- Assist in organizing and implementing events, workshops, and health awareness programs.
- Support the clinical and administrative teams in day-to-day tasks, contributing to operational efficiencies.
- Observe and learn about the practical applications of healthcare policies, procedures, and technologies.
- Engage in professional development and networking opportunities within the UCLA Health community.

Qualifications

- Must be a graduate student (or recent graduate) with a focus in healthcare management, business administration, public health, nursing, clinical research, or a related field.
- Strong academic record with a demonstrated passion for healthcare innovation and patient care.
- Familiarity with healthcare operations, clinical workflows, and patient care processes is preferred.
- Must be legally authorized to work in the United States.

Experience

- Previous internship or volunteer experience in healthcare, research, or a related industry is desirable but not required.
- Any exposure to clinical or administrative environments is considered a plus.
- Experience with data analysis tools or basic project management skills is
