WEC Energy Group Internship Students Opportunities 2025

Description

WEC Energy Group offers internship opportunities for students in 2025 who are passionate about energy, innovation, and sustainability. The internship program is designed to provide students with hands-on experience in the energy industry, working alongside professionals in various departments. Interns will gain valuable insights into the energy sector and contribute to the company's growth and success while developing essential skills for their future careers.

Responsibilities

- Assist in the development, analysis, and implementation of energy solutions and initiatives.
- Collaborate with teams across various departments such as engineering, operations, finance, and environmental sustainability.
- Conduct research, data analysis, and generate reports related to energy projects and operations.
- Support the preparation and presentation of materials for meetings and projects.
- Participate in problem-solving activities and contribute innovative ideas for energy efficiency and sustainability.
- Attend team meetings and learn about different aspects of the energy sector.
- Shadow senior professionals and gain exposure to leadership practices and business strategies.
- Perform administrative tasks and assist with project management duties as needed.

Qualifications

- Enrollment in a full-time undergraduate or graduate program at an accredited college or university.
- Preferred majors include (but are not limited to) Engineering, Environmental Science, Business, Finance, or related fields.
- Strong academic record and desire to learn about the energy sector.
- Availability to work full-time during the internship period (typically summer 2025).

Experience

- Previous internship or work experience in energy, engineering, sustainability, or business-related fields is a plus but not required.
- Relevant coursework or projects that demonstrate a passion for energy solutions and sustainability.

Skills

- Strong analytical and problem-solving abilities.
